

What can I expect from Aloha Pet Services?

I am a professional and I provide personalized services, tailored specifically for you and your pets. With the utmost in professionalism, I open my arms to you and extend my Hawaiian hospitality as you join my family. Your pets will share the love, care and attention that I give all my pets

What are the advantages of using Aloha Pet Services' Home Visits?

Aloha Pet Services offers convenience and peace of mind. Home Visits are perfect during business travel, weekend getaways and vacation. Home Visits are also great if you just need help with your busy work schedule. Your pets will experience less trauma and stress. They will be happy in their own home environment and appreciate having a fun loving surrogate mom. They will also be showered with tender loving care, daily play and companionship. With regular Home Visits we can keep your pets on their normal routine and comfortable in familiar surroundings. Also, special home care services and security measures are included with my Home Visits.

Please describe the Home Care Services that are included with Aloha Pet Services' Home Visits?

Aloha Pet Services will handle miscellaneous home care and security measures around your home. At the same time, your pets will be under great care and an attentive eye is kept on your home. Your home will continue to have regular activity, which will keep your home from being a prime target for potential crime. This is one less thing for you to worry about while you are away.

- Mail/Newspaper Retrieval
- Message Retrieval
- Lights/Curtain Adjustments

- Garbage Bins Curbed
- Plant/Lawn Watering

What are the advantages of using Aloha Pet Services' Dog Walks, Hikes and Social Play?

Aloha Pet Services extends a helping hand if you have a busy work schedule or if you just want to pamper your dog with routine walks, hikes and play. My dog walking, hiking and socializing keeps your dog exercised and extremely happy. As an added benefit, I also reinforce any of your training techniques that your dog is accustomed to. Keeping your dog busy alleviates that pent up energy and unwanted destructive behavior. When you come home, after a long day at work, you don't have to deal with the barking, jumping, nagging and whining. Your dog will be content to just hang out, cuddle and wind down the day with TLC from you. Once, twice, three times a week or more. We'll customize a program perfect for your dog that works with your budget and schedule.

How do we arrange for service with Aloha Pet Services?

The first step as a new or potential client is to schedule an introductory meeting. This meeting is complimentary and takes approximately 20 minutes.

What is the purpose of the introductory meeting?

This is our opportunity to personally meet and say "Aloha!" and for us to get acquainted. This is the start of a long lasting relationship.

Why is it important to have a Pet Sitter who is insured and bonded?

It is important to ensure that your Pet Sitter is insured and bonded because it protects you from any accidental loss to personal property, including your pets.

What will happen if my pet gets hurt?

You will have peace of mind while your pet is under my care because I am *CPR and Pet First Aid Certified*. I have close relationships with *Animal Medical Emergency Response System (AMERS)*, Northern California's first animal ambulance as well as most of the local *Veterinary Hospitals*. Until I can get to the closest *Vet* for advanced care, the first 10 minutes of an occurrence is crucial. With my training and my quick response in those 10 minutes, my care and actions will make the difference.
